

**GD1/135**

**HIV/AIDS AND SEXUAL HEALTH PAMPHLETS**

**Introduction**

This collection was sent to Lothian Health Services Archive without any accompanying documentation. Information within the collection would suggest that the material was sent by Dr Rak Nandwani, of Gartnavel General Hospital (in 2006) who presumably collected it in the course of his work. The material was sent in four envelopes and the original order has been maintained.
