

Introduction

1 Administrative Records, 1989-1992

PH Photographs, 1987-1988

Introduction

In late 1983 instructions were issued to abolish the district level of management in the Scottish National Health Service. Following on from the recommendations of the Griffiths Report, unit-based management was introduced. Unit General Managers were appointed who, in turn, reported to general managers at Board level. West Lothian was managed by the West Unit, from 1986-1992, and West Lothian Unit, from 1992-1993.

Staff newsletters from the West Lothian Unit are available at LHB65/2/1.
